JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

SAN ANTONIO, TEX., *November 18, 1903.*WYMAN, *Washington:*

State quarantine against San Antonio raised at noon to-day. Several counties still holding their quarantines.

RICHARDSON.

All cases of fever have been screened at San Antonio.

SAN ANTONIO, TEX., *November 19, 1903.*WYMAN, *Washington:*

Referring Bureau letter sixteenth, all physicians agreed to screen all febrile cases. The city furnishes nets to patients unable to purchase. Believe screening sick bed has been very generally done. All cases I have seen were screened.

RICHARDSON.

Summary of weekly transactions at El Paso.

Passed Assistant Surgeon Lumsden reports as follows for the week ended November 7, 1903:

Of the 392 passengers inspected on the trains of the Mexican Central Railroad 2 had recently been in the yellow fever infected districts of Mexico. These passengers (man and wife) were en route from Saltillo, Mexico, to Los Angeles, Cal.

Prior to going to Saltillo they were in Monterey. As they presented satisfactory evidence that more than five and a half days had elapsed since they were in Monterey, or any other place infected with yellow fever, they were allowed to proceed without detention.

In the "summary" the number of Mexican immigrants inspected is left blank, because it is not practicable to obtain from the immigration office definite data as to the number of Mexicans inspected who were actually immigrants in time for this report. This will be covered, however, in the monthly report of inspection of immigrants.

During the week the quarantine inspection has continued smoothly as usual, and nothing of particular interest has developed.

The weather during the week has been cool and dry. The lowest average temperature reached during the twenty-four hours of the seven days has been about 34° F.

I have kept in touch with the local health authorities but have heard of no suspicious illnesses among the persons who have come here from San Antonio, Tex.

Summary of transactions for the weeks ended October 31 and November 7, 1903:

	Oct. 31.	Nov. 7.
Mexican Central passengers inspected.....	393	392
Mexican immigrants inspected.....	152	
Inspection of soiled linen imported for laundry.....pieces..	297	
Chinaman inspected.....	1
